### School Facilities

As part of the school accountability report card, school districts and the county office of education are required to make specified assessments of school conditions including the safety, cleanliness, and adequacy of school facilities and needed maintenance to ensure good repair. The certification that a school inspection system has been established to ensure that each of its facilities is maintained in good repair is required in order to participate in the School Facility Program and the Deferred Maintenance Program. This inspection took place on October 10, 2007.

**Repairs Needed:** The inspection found that no repairs were needed. The school meets most or all standards of good repair. Deficiencies, if any, are not significant and/or impact a very small area of the school.
